“I would absolutely encourage everybody to sign up and join the Influence and Impact course. I have found it has given me a really good opportunity to assess my behaviours and how they come across to my team, colleagues and senior managers which has helped a lot.

I have also realised how important it is to set aside time for myself, even just taking an hour and a half during my working week to partake in a call teaches me new skills and behaviours and resets my mood.

I have really enjoyed being part of a female only group, you feel safe and secure and it has been awesome to bounce ideas off each other, you feel really supported each other and by Carla.

The material covered in the course is brilliant, Carla is really good at explaining techniques. I have learnt a huge amount and have really relied on a lot of my learnings in the last few weeks of uncertainty.”

”Being part of a group of amazing independent talented women, leading across a wide range of different fields has been inspiring. It has provided a unique perspective on the course content for me. My key focus has been tackling perfectionism, and hot seat coaching in group sessions with Carla really moved my thinking and practice along.

I feel I am now definitely on the path to success! I really appreciate this experience and I would definitely recommend this course and working with Carla. Carla is extremely supportive, whilst being direct and getting to the point, a powerful combination!”

“Influence and Impact has really helped me connect with the leader I had in myself all along. I found it incredibly helpful to be able to learn not only from Carla, but also draw on the experience of the others in the group, as I step into my own leadership journey.

What did I find most valuable on the course? I think being able to witness that everyone has their own strengths and challenges, and that that’s completely normal! It was great to step outside of the context of my own workplace to be able to see things from different perspectives, and then try them out in my own time with regular support from the group.

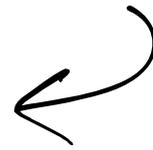

I’m leaving the course in the knowledge that good leadership is a lifelong learning journey, but now I have much more confidence in my own ability, as I have many more tools in my box, and know that I have it within myself to keep learning. Right, off to practice my power poses...”
